As an old proverb says : "To efficient people luck is smiling!". Two days before the races it turns cold and during the Games the weather was wonderful. Sun and snow as it has to be in wintertune!

In addition to the events there was a very interesting social programme. The students had the chance to get into contact with the old traditions of the Tatras Mountains. A wedding party, a carnaval, old folksongs and dances were presented.

With unforgettable souvenirs the participants of the Universiade 1987 in Strbske Pleso went back to their countries.

Thank you very much, Czechoslovakia!

Fritz Holzer
Chairman CTI-Winter
